In-Vacuum Cable Assemblies

Accessories for the Coaxial Series

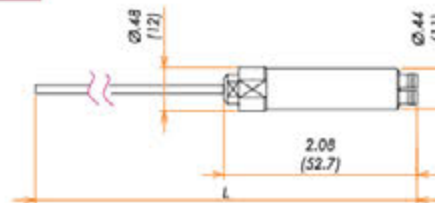

Features

In-Vacuum Cable Assemblies with Kapton® Cable are available that connect to Coaxial series. Specifications depend on circumstances such as vacuum side, air side and temperature. Please select the most suitable products for your application.

Copper-Alloy and Gold-Plated	13	-196 to 300	.03 MAX. (0.8)	SAC16	10142

Removal Tool

Accessories for the Multipin BURNDY Series (Standard / High Current)

Features

Removal Tool is available for Multipin series that remove the socket contacts out from insulators.* This tool ensures that the contact locking louver are fully retracted.
*Insulators of BURNDY and MIL-C-5015 series.

REFERENCE	PART NUMBER
PT16	10138

Crimp Tool

Accessories for the Multipin BURNDY Series (Standard / High Current)

Features

Crimp Tool is available that crimp the wire (AWG #13 to #23) with socket contacts. This 4-indent crimp tool features a micrometer type adjusting knob providing continuously variable adjustments for precise crimp depths. Can be adjusted and set at crimp depths ranging from .025 to .075 inches allowing settings to be within .001 inch.

Kapton® Flat Cable with Socket Contacts in Type-D In-Vacuum PEEK® Insulator

Accessories for the Subminiature-D Series

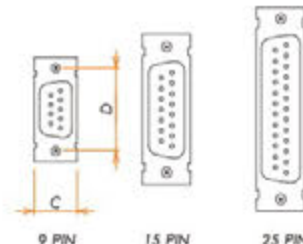

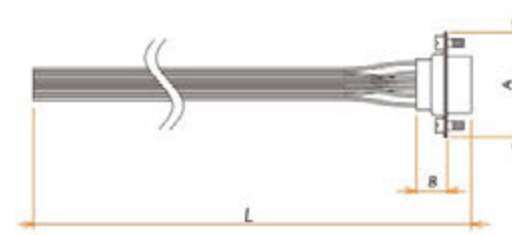

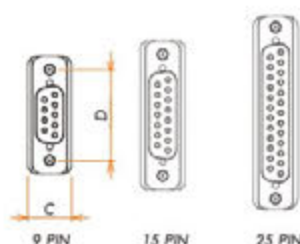

VCA500MD9P/X (12161)

Features

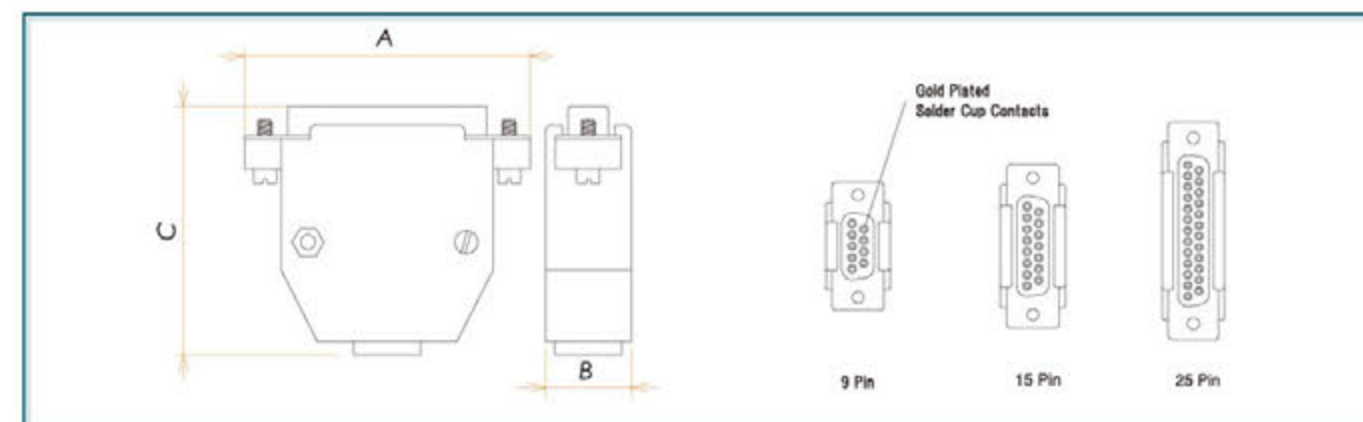

We provide AWG #28 Kapton® flat cable crimped with .040 socket contacts in Type-D In-Vacuum PEEK® insulator for UHV compatible with MIL-C-24308. Also, for HV version is available in Stainless Steel with DAP insulator. Specifications depend on circumstances such as length of cables. Please select the most suitable products for your application.

Vacuum Side Thermocouple Wires Covered with Kapton® Tubes

Accessories for the BURNDY K type Thermocouple

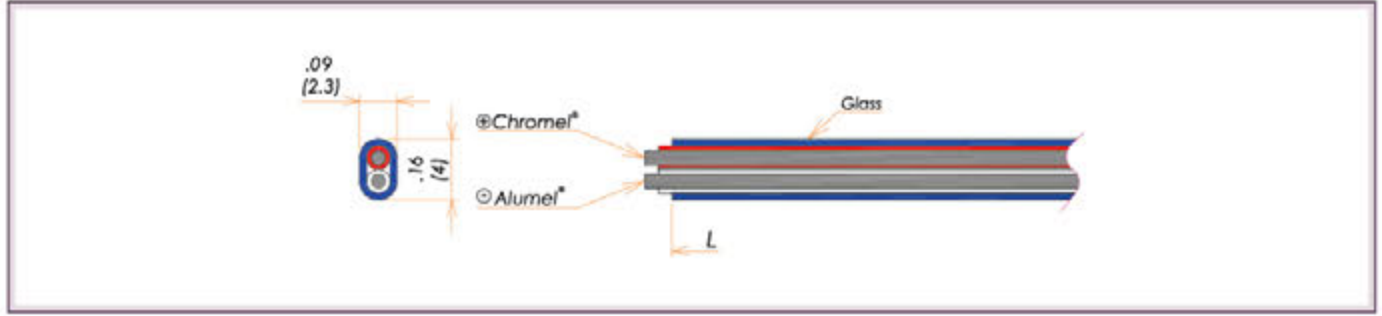

Features

Thermocouple wires covered with Kapton® tubes are available that connect to vacuum side for sure insulation purpose. Specifications depend on circumstances such as diameter and length of wires. Please select the most suitable products for your application.

Materials	Temperature Range:℃	A	B	L	REFERENCE	PART NUMBER
Thermocouple Wires : Chromel®, Alumel® Insulation : Kapton®	-75 to 250	.01 (0.32)	.02 (0.5)	19" (500)	TCKW032L500K	12160

Air Side Glass Insulated Wires

Accessories for the BURNDY K type Thermocouple

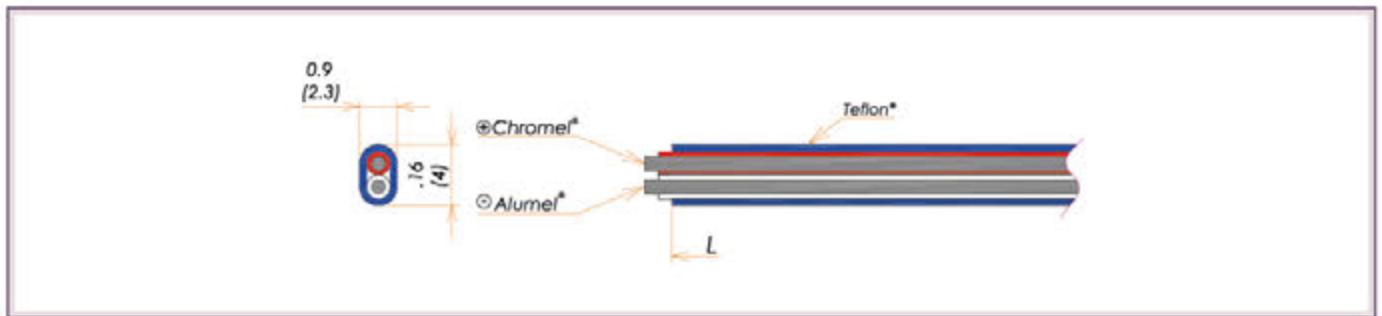

Features

Compensation conducting with glass insulated wires are available that connect to air side. Specifications depend on circumstances such as length of wires. Please select the most suitable products for your application.

Materials	Temperature Range:℃	L	REFERENCE	PART NUMBER
Thermocouple Wires : Chromel®, Alumel® Insulation : Glass	0 to 200	19" (500)	CCWKL500GST	12198

Removal Tools

Accessories for the BURNDY K type Thermocouple

Features

Removal Tool is available for Multipin series that remove the socket contacts out from insulators.*

This tool ensures that the contact locking louvers are fully retracted.

*Insulators of BURNDY and MIL-C-5015 series.

PT16	10138

Accessories for the BURNDY K type Thermocouple

Crimp Tool

Features

Crimp Tool is available that crimp the wire (AWG #13 to #23) with socket contacts.

This 4-indent crimp tool features a micrometer type adjusting knob providing continuously variable adjustments for precise crimp depths. Can be adjusted and set at crimp depths ranging from .025 to .075 inches allowing settings to be within .001 inch.
